

Team 2

S. No.	Name	Roll No.
1	Saurabh Surashe	202CD029
2	Vaibhav Pant	202CD031
3	Mithilesh Wankhede	202CD033

Project Objective- Identify which customers will make a specific transaction in the future, irrespective of the amount of money transacted.

About the Dataset- An anonymized dataset containing numeric *feature* variables, the binary *target* column, and a string *ID_code* column.

Task- The final task is to predict the value of *target* column in the test set.

Bench Marks: -

- Importing packages and Data
- Exploratory Data Analysis
- Using different Machine Learning Algorithm
- Comparing the Test Data on Model build using Training Data. And Finding Its Accuracy
- Evaluating on area under the ROC curve between the predicted probability and the observed target

Expected Date of Project Completion: - 10 May 2021
