Sr. No	Name	Roll No.
1	Shubham Ramesh Tikle	203CD003
2	Harsh Kumar Singh	202CD007
3	Kankipati Joseph Suhas	202CD010

Project Objective- To predict the sales price for each house. For each ID in the test set, you must predict the value of sales price variable.

About the Dataset- This dataset contains information on LotFrontage, LotArea, Street, Alley, LotShape, Landcountour, Exteriors, Foundations, Bathrooms, Kitchen etc.

Bench Marks:-

- Importing Datasets
- Exploratory Data Analysis
- Machine Learning Model Selection
- Comparing the Test Data on Model build using Training Data & Finding Its Accuracy
- Conclusion & Future Scope

Expected Date of Project Completion :- 10 May 2021
