Machine Learning Assignment-2

Team members:
1. sairam jujjarapu 202cd009
2. Rishabh Bichpuriya 202cd022
3. vivek luhaniwal 202cd032

Objective: House Rent prediction

Milestones:

- Anlaysis of different data sets and find best features which will contribute more to result.

- Study different machine learning models

- Deal with missing values,categorical variables, and normalize data etc.

- We will try different models and find which will give less error and compare.

Expected Date of Project Completion :- 10 May 2021
